# A glass roof is perfect at night. Haven Sky makes it perfect at noon.

Sun through glass turns a beautiful room into a greenhouse. Haven Sky is a fabric shade that travels across the ceiling, under the glass or over a pergola frame, at the touch of a button.

Its edges zip into two side rails, so the fabric stays flat and taut instead of sagging. Stop it anywhere: shade the tables in the sun, leave the rest of the roof open to the sky.
